

3SI combines acquires IBP France

-Reinforcing market leadership and strengthening presence in France-

Zaventem, 29 June 2007, 3SI Security Systems (3SI), the world's leading manufacturer of electronic security systems for cash protection, has the pleasure to announce that, following the acquisition of ECA in February of this year, the company has signed an agreement with IBP France, Jacques Gallais, for the acquisition of their operations in France.

IBP France, created 1993 is specialised in the distribution of innovative security systems for financial institutions. Until today IBP France was the exclusive distributor of ECA products in France. This strategic acquisition confirms 3SI's market leadership in France of smoke and dye security systems and gives the company access to an installed base of approximately 1.000 financial branches equipped with SmokeNote.

Jacques Gallais, IBP France : « This acquisition and the integration of our structure into an international group like 3SI, guarantees the continuation of supplies and services to our customers while giving them access to a larger product range to satisfy their security needs. »

Bart Milissen, 3SI Europe declares : « We are happy to associate ourselves with Jacques and his team in order to combine our companies' strengths and to better serve our clients' needs through the provision of effective solutions to stay ahead of crime. »
